Our Mission...

-At the Lewiston and Grand Island Dance Centers we believe dance classes should be designed to develop strength, balance, grace, poise, rhythm and most importantly, self-confidence. We encourage our Dancers to broaden their dance experience through technique and performance.

-Our students will learn in a relaxed environment where a love for Dance and Physical Activity will become a positive and permanent part of their lives.

- Lewiston and GI Dance Centers are dedicated to teaching children and young adults the art of dance.

Types of Dance

Toddler Class (Ages 2-3)

This class is geared specifically for the very young child. The activities will include singing, following direction, socialization and coordination. The exercises are designed to help these very young students with gross motor skills and an increased attention span.

Pre-Ballet Class (Ages 3-5)

This class is geared specifically for the young pre-school child. The activities will include developing rhythms, hopping, skipping, jumping, directions and an overall improvement in motor skills and social skills. Ballet steps and terminology is used. Having fun in a structured and safe environment is a great way to learn!

Ballet Classes

Ballet is the foundation of all dance technique, and therefore highly recommended for all dance students. Ballet promotes correct posture, body placement, grace, poise and turnout. We incorporate terminology and combinations for strength and flexibility.

Tap Classes

Tap is a technique that incorporates the essentials of rhythm and timing. Terminology is stressed as well as footwork and of course, style!

Jazz Classes

Jazz classes move at a fast pace to help increase coordination, stretch and flexibility. An emphasis is put on learning proper technique and terminology. It is exciting and creates a dynamic interest for Dancers ages 7 and up.

Lyrical/Contemporary

Lyrical Dance uses movement to express emotion and interpret music. It is a strong technique based type of dance. The concentration in Lyrical will be on fluid movements paired with advanced jumps and turns. The student will learn to "feel the music", by using emotions with the dance steps. This is an advanced study.

Modern Classes

Teaches Modern Dance moves with an emphasis on turns, jumps and floor work. Modern Dance helps the student to interpret music through movement. This class strengthens the body, especially balance to enhance the student's performance.

Hip-Hop/ Mini Hip-Hop Classes

Hip-Hop is available for students 5 years old and up. This is one of the newest styles of dance today, offering a great workout, as well as the latest steps and different styles.

Broadway

Musical Theater focuses on expanding the students experience in dance, acting and singing. This Broadway based class will help your child become more confident by nurturing artistic elements, discipline and personal growth.
